DETAILED ACTION

EXAMINER'S AMENDMENT

1. The application has been amended as follows:
2. In the applicant's specification, page 1, immediately after the heading, the following phrase has been inserted: --This application is a continuation of 09/043982 filed March 19, 1999 and now US patent 6195604 which is a 371 PCT/GB96/02216 filed September 1996--.
3. In the applicant's specification, page 1, paragraph four, "In accordance with the present invention a tractor is provided having the features of claim 1 hereto, with optional features.....set out in claims 9 and 10 hereto." has been cancelled for consistency with the pending claims in the application.

Allowable Subject Matter

4. Claims 11-25 are allowed.
5. The following is an examiner's statement of reasons for allowance:

Regarding independent claim 11, the applicant's particular system and associated method comprising [a controller that is responsive to said signal from said sensor and that generates a performance map of the performances of the agricultural tractor as a function of an area in the agricultural field in which the agricultural tractor is operated]... in combination with the other limitations of the claims, was not disclosed by, would not have been obvious over, nor would have been fairly suggested by the prior art of record.

Art Unit: 3663

The dependent claims, being further limiting to the independent claims, definite and enabled by the Specification are also allowed.

The closest prior art, Manson et al discloses [a controller that is responsive to a signal from a sensor and that generates a performance map of the sensor]. Manson does not disclose [a controller that is responsive to said signal from said sensor and that generates a performance map of the performances of the agricultural tractor as a function of an area in the agricultural field in which the agricultural tractor is operated]. Thus, the closest prior art fails to anticipate or render Applicant's limitations above obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
